

Apparatus Appearances

Citizens may request that an engine come out for an event such as a community day or block party. **Henrico Fire no longer attends birthday parties**, however station tours are available. Children must be 4 or older.

Apparatus appearance requests must be made at least 30 days in advance. Please remember our **apparatus must remain available for emergency response**. We will do our best to accommodate your request, but emergency calls for service may cause units to leave early, arrive late, or fail to arrive at all. Due to this unpredictability, we recommend letting the arrival of the fire engine be a surprise for the event participants.

To make a request, please fill out the [Request Form](#) with the following information:

Contact information including name, address and telephone number.

Date, time and location of the event.

Group size and age range. (i.e. number/ages of children and number of parents)

The Division does not allow birthday parties to be held at the firehouse.

Henrico County Division of Fire reserves the right to reschedule or cancel Division participation in any event at any time due to unforeseen circumstances, schedule conflicts, or other situations resulting in lack of adequate resources or staffing.
